

HYSITRON™

**Proudly host the
OPENING RECEPTION**

for the

WISCONSIN SCIENCE AND TECHNOLOGY SYMPOSIUM

Wednesday, July 16th, 6-9 pm

Ballroom C, Memorial Student Center, UW-Stout

RSVP by July 14th, Pat Dillon, dillonp@uwec.edu, 715 -836-5056

Please join us in kicking off the Symposium with hors d'oeuvres, refreshments and a talk with insight into the role of nanotechnology and partnerships in expanding research opportunities.

7 pm - "When Technology And Academia Meet To Create Funding Opportunities For Research At Nano"

About the talk:

Nanotechnology and nanomechanical testing of materials is a very dynamic area of science involving research at numerous government, industrial and university laboratories that support future technological innovations. We will discuss Hysitron's technologies, and how they have evolved to meet the demands of a continuously changing and expanding market relative to academia, industry and technology providers.

About the speaker:

Mr. Lance Kuhn received a Bachelor's degree in Physics from the University of Wisconsin - River Falls in 1995. Mr. Kuhn is the manager of Customer Service at Hysitron. He is responsible for Hysitron's customer support world-wide, and manages Hysitron's customer service team consisting of internal employees and external agents at various distributors throughout the world. His commitment to maintaining a premier level of customer satisfaction and instrument operation has made Hysitron's customer service among the best in the industry.

About the hosts:

Hysitron, Inc., a Minneapolis based company, is committed to designing, producing, and servicing the world's leading nanomechanical test instruments, and is a leading supplier of nanomechanical instruments for advanced research and industrial applications. Since 1992, Hysitron has developed and supplied the most advanced instrumentation available for nanoscale surface analysis. Hysitron's instruments are designed to enhance productivity and operate with a high level of accuracy and repeatability.

Wisconsin Entrepreneurs' Network, created in 2005 as a part of the Governor's Grow Wisconsin Plan, is a partnership among the Wisconsin Department of Commerce, the University of Wisconsin System and Extension, the Wisconsin Technical College System, the WiSys Technology Foundation, and the Agricultural Innovation Center to support entrepreneurship and technology commercialization efforts in Wisconsin.
